Final-year B.Tech CSE student specializing in **Web Application Security** and **Full-stack development** — hands-on with penetration testing, OWASP Top 10, and DevSecOps, and building secure, production-grade web applications and security tooling.

EDUCATION

Silicon University

B.Tech in Computer Science and Engineering — CGPA: 8.47 / 10

Bhubaneswar, Odisha, IN

Sept 2023 – May 2027

Apex English Medium School

Higher Secondary (Class XII), Science — 89%

Jajpur, Odisha, IN

Aug 2022 – May 2023

Apex English Medium School

Secondary (Class X) — 82%

Jajpur, Odisha, IN

Aug 2020 – May 2021

EXPERIENCE

Cybersecurity Intern

May 2026 – July 2026

Jazzee Technologies

Bhubaneswar, India

- Performed **vulnerability assessments and penetration testing** on web applications, identifying and reporting **OWASP Top 10** flaws including SQL injection, XSS, and broken authentication.
- Conducted network reconnaissance and traffic analysis using **Nmap, Wireshark, and Burp Suite**; analyzed system logs and security alerts to detect intrusion attempts.
- Documented findings in detailed security reports with risk ratings and remediation guidance, and supported hardening of Linux servers and web-facing services.

DevOps Masters Intern

June 2025 – July 2025

Ingenious Tech Pvt. Ltd.

Bhubaneswar, India

- Built an end-to-end **DevSecOps pipeline on AWS EKS** integrating Terraform, Kubernetes, Docker, and GitHub Actions CI/CD with automated security scanning.
- Provisioned AWS CodePipeline (CodeCommit, CodeBuild, CodeDeploy) as **Terraform IaC**, and authored shell scripts automating backups, log cleanup, and health checks — reducing manual ops effort by ~40%.

AWS Masters Intern

June 2024 – July 2024

Ingenious Tech Pvt. Ltd.

Bhubaneswar, India

- Deployed full-stack applications on **AWS EC2** (Linux/Nginx); configured S3 lifecycle policies and **least-privilege IAM** roles.
- Built **CloudWatch** dashboards and alarms for EC2 monitoring and automated event-driven workflows with **AWS Lambda + API Gateway**.

PROJECTS

SiteShield — Multi-Tenant Web Security Scanner | Python, FastAPI, PostgreSQL, Docker, CI/CD

2026 – Present

- Engineered a **multi-tenant SaaS security scanner** that audits any website across four engines — TLS/transport, HTTP security headers, cookie flags, and information exposure — grades the posture, and generates downloadable **PDF reports**.
- Built a **FastAPI** backend with PostgreSQL (Neon) per-tenant scan history, JWT authentication, Dockerized services, and a **GitHub Actions** pipeline running a green **pytest** suite before every deploy.

Network Packet Analyzer | Python, Scapy, Pyshark, Socket, Cryptography

Mar – Apr 2026

- Built a **live network traffic capture and analysis tool** with protocol dissection (TCP/UDP/ICMP), anomaly flagging, and encrypted-payload detection, surfaced through a real-time SOC-style dashboard.

Online Event Management System | React, Node.js, Express, MongoDB, JWT

Jan – Mar 2026

- Built a full-stack **MERN** platform with an admin dashboard, user registration/booking flows, **JWT authentication**, and dynamic event rendering from live backend data.

TripBoss — Smart Travel Assistant | HTML, CSS, JavaScript, MySQL, Wikipedia API

Sept – Nov 2025

- Built a travel web app with currency converter, translator, and live weather modules; integrated the **Wikipedia API** for auto-generated city summaries with MySQL-persisted user preferences.

Student Management System | Java, Swing, Oracle DB, JDBC

Sept – Oct 2024

- Built a desktop **CRUD** application with full student record management, JTable display, multi-field search/filter, and auto-generated roll numbers backed by **Oracle DB** via JDBC.

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, SQL (MySQL/Oracle), HTML/CSS, Bash

Cybersecurity: Kali Linux, Burp Suite, Wireshark, Nmap, Metasploit, Nikto, Scapy, OWASP Top 10, Penetration Testing, Vulnerability Assessment, Network Forensics

Web & Frameworks: React, Node.js, Express, Flask, FastAPI, JSP/Servlets, REST APIs, MongoDB, PostgreSQL

Cloud & DevOps: AWS (EC2, S3, Lambda, IAM, VPC, CloudWatch, EKS, CodePipeline), Docker, Kubernetes, Terraform, GitHub Actions, CI/CD

Developer Tools: Git, VS Code, IntelliJ, Jupyter, VMware, VirtualBox, Parrot OS
